Uday Datar

WEB DEVELOPER

ABOUT ME

I'm a developer hailing from India living in Gurgaon. I'm currently studying at the Manipal Institute of Technology (class of '25).

I used to work mainly in data science but recently started learning Web Development too.

AMATEUR PROJECTS

STONK.PY

- Uses an LSTM network to predict the values of stocks.
- Just a practice/experiment using TensorFlow and Keras.

SSA.PY

- Performs Simple Sentiment Analysis on a stock based on text comments about it.
- Another experiment to try to see how to classify text as positive sentiments or negative sentiments.

SKILLS

Python
(Matplotlib,
Scipy,
scikitlearn,
tensorflow,
keras)

Javascript
(react,
gatsby)

R
